

Technical Data Sheet

ER– 200 Mold Release

In mold making and resin casting it is imperative that you have a strong release agent that is reliable. ER-200 by Mann Formulated products has been used for many years and remains as effective and dependable as ever. ER-200 can be used for pouring silicone against silicone, urethane against silicone, as well as some epoxies against silicone. ER-200 is supplied in 12 oz. aerosol cans.

Uses:

Hobby and art projects

Sculpture and Figurines

Candle and Soap Molds

Rapid Prototyping

Special Effects

Model Making

Taxidermy

Rollers

Silicone Print Pads

Directions for Use:

1. Shake Well before use.
2. Hold can 12 in. from model surface.
3. Apply a light mist over all surfaces. Do Not Over Apply. Release will effect cure of material poured against it if it is over used.
